"We in the NERCLC are excited to partner with a local Boy Scout Troop in sponsoring this event. Each participating Boy Scout will be a spokesperson for your vehicle as this event will be open to the public. It will be important to have your commitment in advance so that a Scout can be assigned to your car. On the morning of the event, you will meet your counterpart and share information about what makes your car unique and special. So often we lament about the future of our hobby. Here is an opportunity to inspire interest with those who will be here with our cars when we will not be."
